It is Saturday in the Hudson Valley.

The stock market seemed unphased by the election and had a strong upward trend. The recovery remains uneven by sector. Unemployment is high but not as high as some predicted. And the WEI Index continues to improve.

New cases of Covid-19 have reached record numbers averaging 120,000 for the past three days.

There are people, businesses, state and local governments and the MTA that all could use some help.

With winter coming we will need another Federal stimulus.

Welcome to your presidency...
